

DreamScape announces new High Efficiency Roll Sizes!

DreamScape, a leading manufacturer of inkjet printable media for commercial and residential wallcoverings and murals, announces addition of new high efficient roll size in 54” width premium digital print media.

Rockaway, NJ, November 20, 2019 – **DreamScape** is pleased to announce that a new high efficiency roll length is available on several of DreamScape best sellers. The new 600’ length is twice as long as before, and can better meet the demands of today’s fast inkjet technology. Operators will appreciate the ability to minimize roll changes, maintain longer print cycles and reduce overall downtime.

Available items: Canvas, Matte, Mystical, Suede, and High Performance Suede!

Roll Length 600’ = 200 linear yards

Roll Width – 54”

Roll Weight – approximately 270 lbs

Roll Diameter – 13.5” to 15” depending on product selected

Packaging – each roll is kraft wrapped and suspended on a sturdy 6” core, 4 rolls per pallet

Minimum Order – 4 rolls, must order in 4 roll increments (full pallets)

Lead Time – 2 to 4 weeks

Printers wishing further information can call 973-625-7923.

DreamScape is a division of Roysons Corporation, one of the nation’s leading manufacturers of commercial and residential wallcoverings, wallboard and wallcovering substrates.
